

NOTE:

This is a Single Channel Ignition Module.

IGN (X) refers to any IGN output from the Wolf3D ECU.

Coil (X) refers to the coil that IGN(X) will charge and fire.

Recommended Bosch Coils to use with this igniter are MEC717 or MEC718.

Max Charge Time for regular coils is 3.8mS.

Max Charge Time for late model Coil-on-Plug applications is 1.8mS.

Because all of the current flowing through the coils must flow through the module, you should ground the module ground pin to the engine block.
